

## Helping Schools Help Families

We know there are times when things are tough for families and we want to help families as soon as possible. Schools are often a trusted place to ask for help. The school partnership helps schools to support families by sharing what is available in your community

## It's a meeting

You may wonder what the school partnership is. It is simply a meeting where a group of services work as a team to figure out the best way to help you and your family.

## The Partners

The team can vary but we invite lots of partners from services that help people. In attendance may be health, Early Help, Education, Education Welfare, CAMHS, Youth service, and services that support with Finance, debt and benefits.

## What we need from you ?

Thank you for asking for help. We want to be able to get you the right help at the right time. School will attend the meeting for you. We need your consent to discuss your family . School will arrange to meet with you after the meeting to allow them to share the options for support.
