Inviting applications from schools for the global Vodafone Girls in STEM virtual programme in March 2023

Hi,

We are excited to announce the launch of **Vodafone's Girls in STEM virtual programme** globally in **March 2023**.

As part of our efforts in Vodafone to create more opportunities for women in STEM, we invite the girls in your school to join the Girls in STEM virtual workshops in March.

The purpose of these workshops is to create awareness of various academic and career opportunities for young girls between **12 – 16 years** in the field of Science, Technology, Engineering and Mathematics (STEM) and inspire them to pursue a career in Technology.

These workshops will be career guidance sessions which will be organised in 90-minute slots on the following days in March:

- 17 March (Fri) – Introduction to careers in Software Engineering
- 24 March (Fri) – Introduction to careers in Cyber Security
- 31 March (Fri) – Introduction to careers in Networks

You can choose one of the two sessions (11 am or 5 pm UK time) according to your time zones for the girl students to attend these workshops.

Here is the link to join the sessions: https://vstream.vodafone.com/VodafoneGirlsInSTEM

Click here to register your school for the STEM workshops. The last date to submit the registration form is 10 March 2023. If you have any questions, you can write to us at ctasgovernance@vodafone.com.

Let's inspire and empower every girl we connect with during these workshops to pursue a career in STEM. We are really looking forward to your support in making this global event a huge success.
